Offensive/Inappropriate Behaviour by Participants	All attending the session could be offended, or put at risk due to inappropriate behaviour.	B1 (Possibl e/Major)	 SVC organises Digital Activities for Huggard beneficiaries. To ensure the safety of participants SVC pays for a monthly subscription which allows additional security functions (in comparison to the free version of zoom). All zoom sessions require a specific meeting ID and are password protected. The meeting ID and password are only shared with Huggard staff, beneficiaries and SVC volunteers - through email addresses and a private volunteer Facebook group that is monitored by SVC staff. An SVC and Huggard employee will be present at all live sessions, and will either 'host' or 'co-host' the session – to ensure they are able to monitor participants. All zoom session will have a waiting room facility enabled, the SVC employee hosting, or co-hosting the session is responsible for admitting participants. After 15 minutes, all zoom sessions will be locked, to ensure no one else is able to join the session. The SVC employee who is hosting, or co-hosting the session, is responsible for monitoring participant behaviour. They are able to end the meeting for all, remove a particular participant, place a participant back 	C3 (Improbabl e/Minor)	SVC to consider purchasing the Business Platform for additional security. Password for Zoom Sessions to be changed monthly to add additional security. If zoom sessions are ever to be shared with external partners, then they must request, by email, who they would like to access activities, and complete a brief form stating they will have appropriate support, and that there are no concerns regarding why	Adrienne Earls and Eleri Cruchley- Jones (27/06/2020)

 into the waiting room, stop a participant's video or mute a participant's microphone. The SVC employee who is hosting, or co-hosting will also monitor the live chat to ensure that it is being used appropriately, if not, then they will disable the chat. Participants will be supported to access the activity where necessary by Huggard staff. If a participant joins without their microphone and video on, the SVC employee who is hosting, or co-hosting, the meeting will identify the device and request the participant turns on their microphone and 	they could not access these types of activities. Organise a zoom workshop so all Innovate employees who will host, or co- host sessions, are aware of all functions and how to enable them. Ensure invites to
 camera, so that they can be monitored. If any participant fails to share their camera when requested, they will be placed in the waiting room, or removed from the zoom session. Any inappropriate behaviour to be reported immediately to the SVC Manager (Adrienne Earls), SVC Project Coordinator (Eleri Cruchley- Jones) or the Huggard Activities Coordinator (Khaleel Alale). Any concerns or incidents to be recorded on the 'Digital Activity – Incidents & Concern' section of the Huggard Social Club Spreadsheet 	zoom sessions, plus Digital Calendars explain that sessions will be locked (once the session is locked no one can join, unfortunately that includes late-comers). Where appropriate, the SVC employee

Appropriateness of different groups of Participants attending session.	SVC employees participating in sessions with their children.	B1 (Possibl e/Major)	 All SVC employees' children should only attend sessions with the supervision and support of their parents/ carers/ guardian. They should never be left unattended. It is the responsibility of SVC to ensure this message is conveyed to all staff attending with children. If the SVC employee hosting, or co- hosting, the session sees an unattended child they are to remove the child from the session and report this to the SVC Manager (Adrienne Earls). 	A3 (Probable/ Minor)	Adrienne Earls and Eleri Cruchley- Jones (27/06/2020)
Use of personal devices to access	All attending session – security on personal devices may be lower, and may therefore risk online safety of another attendees' information.	B1 (Possibl e/Major)	 All beneficiaries to be supported by support staff with appropriate use of their own devices, if support is required. SVC employee hosting, or cohosting, the session to ensure that no personal information is shared during the session (to ensure that personal information can't be saved to a personal device). SVC and Huggard employees to ensure no volunteers or beneficiaries enter the session displaying their full name. SVC employee hosting, or cohosting, the session, to ensure they use SVC's business zoom account and not their own personal account to set-up and manage sessions. 	A3 (Probable/ Minor)	Adrienne Earls and Eleri Cruchley- Jones (27/06/2020)

Identifying participants in Zoom sessions.	All attending the session may be at risk of breach in safeguarding if participants are not known to the organisation.	B1 (Possibl e/Major)	 Joining details of zoom sessions to only be shared with Huggard staff, beneficiaries and SVC volunteers - through email addresses and a private volunteer Facebook group that is monitored by SVC staff. A Huggard team member to attend each session (until the session is locked) to ensure they can validate the identification of all participants. 	C3 (Improbabl e/Minor)	If a participant's identity can not be verified, they should be placed in the waiting room and asked security questions through the 'chat to waiting room' function. Only once identity has been verified should they be admitted back into the session.	Adrienne Earls and Eleri Cruchley- Jones (27/06/2020)
People outside of the organisation joining the meeting - Password & Meeting ID being passed to others	All attending the session may be at risk of breach in safeguarding as those members are not known to the organisation. - Risk of inappropriate behaviour those unknown to the organisation - Risk of personal	B1 (Possibl e/Major)	 All staff, beneficiaries and volunteers are provided the information via secure routes. Staff, beneficiaries and volunteers are reminded that the information is secure and that it should not be shared outside of the organisation. All zoom meetings have a waiting room in place, all participants have to be admitted into the meeting by the SVC employee hosting, or cohosting, the session. 	C3 (Improbabl e/Minor)	Inform all staff & beneficiaries that password & meeting info is private.	Adrienne Earls and Eleri Cruchley- Jones (27/06/2020)

	data/informati on being taken.					
Recorded data being misused through use of the function "record on this computer"	All attending the session may be at risk of breach in safeguarding.	A3 (Probabl e/Minor)	 It will only be those hosting, or co-hosting a session who would be able to activate this function. Therefore, any host, or co-host (employed by SVC, or otherwise) must be informed in writing that they should only use this function as evidence of a major breach of the session's rules, or concerns regarding a safeguarding issue that has arisen within the session. This recording must be immediately submitted to the SVC Manager (Adrienne Earls). 	C3 (Improbabl e/Minor)	If a session has to be recorded, where a child is present, this data should be referred <u>immediately</u> to Nick Rees or Ashley Bale, and then deleted.	Adrienne Earls and Eleri Cruchley- Jones (27/06/2020)
Recorded data being misused through use of the function "record to the cloud"	All attending the session may be at risk of breach in safeguarding.	A3 (Probabl e/Minor)	 It will only be those hosting, or co- hosting a session who would be able to activate this function. If this function is to be used to record sessions then all participants must be made aware of this in writing prior to engaging with the activity. This should therefore be written on all invitations to sessions. 	C3 (Improbabl e/Minor)	Prior to using this function, SVC to research where this data is stored. Which country stores the data and ensure there are no breaches to GDPR. What rights does Zoom have over the data recorded – can it be shared with third parties?	Adrienne Earls and Eleri Cruchley- Jones (27/06/2020)
